

## Unity / 3D Software Developer

Full time, Pymble NSW

*360 Med Care is an innovative Australian company operating in the medical device, health care, and biotechnology sector specialising in total joint arthroplasty. We are driven to optimise the episode of care through the combination of people, knowledge and technology.*

360 Med Care is looking for a Unity/3D software developer to drive change in Orthopaedic industry. You might have come from the gaming, architecture, automotive or any other industry that has worked with the Unity3D platform. If you have the talent, we have the environment for you to succeed in.

### Requirements:

- Available for onsite work in Pymble, Sydney
- Proven experience developing a Unity 3D application
- Strong coding standards and software architecture understanding
- Good handle on 3D geometry and transformation mathematics

### Nice to have skills:

- Rich understanding of User experience principles
- Experience with GPU programming/shaders
- Have taken on complex software projects that allow the design of software architecture and implement best software practices, including software testing
- Experience in cross-platform development
- Experience with an agile project management mindset
- Working knowledge of 3D modelling, lighting, UV-mapping/texturing
- Experience with presenting and demoing concepts to sophisticated end users/customers (surgeons in our context) and guiding development with feedback

## Key attributes:

- Keen eye for polish, detail and performance
- A passion for design and innovative ideas
- Proactive in leading what's best for the team
- A team player looking to collaborate and share
- Ambitious use and embrace of new technologies
- Doer. Reliable and have the passion in pursuit for the best outcome
- Great communication skills
- A passion for constantly making things better and mastering your craft

This role reports to the Head of Research & Development. The role comes with an attractive compensation and benefits package where you will be recognised for your work at each step of the way.

At 360, our People ambition is to have an exceptional team, who challenge the status quo, are growth focused and help lead our purpose of optimising the episode of care.

We are committed to our values of Challenge, Innovation, Leadership and Teamwork. If you feel you are up for a great challenge, please send your resume to **hr@360med.care**
